Chinese Language

Beginners' Class:

Chinese language is regarded as one of the most difficult languages to learn due to its distinct pronunciation and pictographic characters. However, learning Chinese is never a mission impossible. The beginners are expected to acquire the elementary vocabulary and patterns, which may seem to be hard at the outset. It is the indispensable step for the Chinese language learning though. This entry-level Chinese language course will offer students a genuine vision of what and how the Chinese people are thinking and talking, thus helping them to pave the way for a more real and pleasant experience of the Chinese culture.

Intermediate Class:

This instruction is designed to improve your overall ability to understand and use Chinese language. The course consists of pronunciation practice, explanations and practice of new linguistic items, and practice of listening, speaking, reading and writing. The course aims at improving students' overall language proficiency through a variety of learning activities and tasks.

Advanced Class:

Advanced Chinese class focuses more on analyzing the reading material or social phenomenon then presenting your opinions on it as well as writing reports. Students are expected to be familiar with the new words and new text before they come to the lessons thus in the class, the main focus will be discussions, reports, and presentations.

Credit Transfer

Students who wish to have the ECNU credits transferred to other colleges and universities are advised to consult with the appropriate academic authorities at their home institution in advance. Home institutions' academic advisers make the final decision whether a particular course may be applied towards the major or elective requirement at the home institution.
